[redacted] met at our initiative with Bob Magee and [redacted] (DD/Pers for employment) to discuss three basic matters--a changed emphasis by OP representatives in their presentations to visiting academic groups (to which D/Pers agreed); a reorganization of the first-days program for new EODs (reorganization will commence on 16 July); and a broad discussion of how OP, the DI, and this staff can cooperate in the conducting of the DI campus recruitment program for 1984-85. Bob Magee endorsed in principle the suggestions we made in this connection, but noted that the DI is committed to pursuing its own individual recruitment program for now. He wished us well in our efforts to assist the DI with its recruitment efforts, however.

We received a request this week through a SOVA analyst from two post-Doctorate researchers at Princeton University for digitalized data on population density in the USSR. The DI will provide the data directly, which is unclassified; they are to be used in connection with a study underway at Princeton concerning the impact of nuclear attack on the Soviets.

Arrangements were made with the Center for Strategic and International Studies, Georgetown University, to obtain regularly advance announcements of its numerous programs which Agency personnel might wish to attend. DI personnel have an interest in a number of these programs of which they had not been previously aware.

This week's briefings included:

- State Department Summer Interns.
- U.S. Air Force Brig. General Ersler, Vice Commander, Electronic Security Command.
- NSA Senior Cryptologic Reserve Officer Course.
